Roll Call and Announcements – 5 minutes

Regional Work Planning Webinars – 5 minutes

Art Flaks, OSRTI

Purpose: Discuss upcoming FY2018 Work Planning Data Entry Webinars scheduled for June 19 or June 27. *Informational purposes.*

Discussion on RA Duration Data – 20 minutes

Victoria van Roden, OSRE

Purpose: Ongoing PRP-Performed Remedial Actions are 10+ years in duration and significantly higher than Government Performed Remedial Actions. The large number may be linked to a misunderstanding of SPIM PRP RA Completion definition for groundwater sites and/or a SEMS data entry error. For instance, many of these sites may be in O&M stage and the PRP-Performed RA action should be noted as completed SEMS. Trying to understand why and solicit regional input.
